Our Mission

To serve and to protect the interest of our Clients through providing the best services available.

To achieve excellence in providing those services & to encourage their participation through employing the ever evolving information and communication technologies.

To provide both the private and public sector with innovative & robust solutions that exploits the potential of cutting-edge Information Technologies. This we do by listening closely to the needs of our clients as they grapple to align new technologies with business strategies.

To provide clients with high quality, appropriate, total Information Technology Solutions, at cost-effective rates, in time, all the time - with the required on-going service and support.

The hallmark of Aire Solutions is the delivery of exceptional services and solutions. This we do by continuously stimulating awareness of total quality principles amongst our professional staff and embracing change, continuous improvement, diversity, technology and innovation; we strive to ensure the delivery of ultimate client satisfaction.

Why Aire Solutions ...

Experience: 5 Years of experience serving local and global clients.

Strong history of excellent performance: Our profile shows that we are IT consultants and Services providers, experts in Business/System Analysis & Architecture and in providing small/medium/large scale organizations and enterprises with fully integrated Windows & Web Applications for a complex environments.

Punctuality: We take into consideration the importance of meeting deadlines, our projects are delivered on or before the due date. We didn't have any delay in delivering any of our projects.

Reliability: Our proven reliability means that you can count on us to continue deliver our services no matter what the circumstances.

Sustainability: Through minimizing maintenance and support requirements by providing you with sustainable solutions. Our experience enables us to focus on helping our clients to achieve their missions and not just on meeting contractual requirements.

Risk Management: Identify, mitigate and track project risks to ensure that trade-offs and decisions are made in an informed manner. Also, sharing the risks so that all parties have an incentive to participate in mitigating the risks and prevent negative outcomes.

Client Partnership: We form a partnership with our customers which ensure their participation in the development and implementation process and keep them in the loop regarding project events.

Quality: Quality assurance to further accentuate quality norms.

Adherence to standards: We adhere to the worldwide technical concepts such as: Structure Unity, Agile and Open architecture because we believe that the software and data are one of the most valuable assets to our customers, thus changing the hardware should not affect the software applications, consistency and help facilities follow standards are always addressed and always taken care of in our design and development.

Who We Our...

Aire Solutions is a Lahore Based IT services provider, known for providing clients with Enterprise solutions addressing their local business needs. Aire Solutions offers state-of-the-art technologies including: Server Installation / Deployment & Enterprise Network Solutions, Wi-Fi / Wi-Max Solutions, Web Hosting, Email Hosting Solutions, Dedicated Server Hosting, Co-location Server Hosting, Security Camera Installation / Maintenance, Ecommerce Solutions, Web Designing, Graphic Designing, Computer Hardware, Data Recovery Solutions, Network Service / Maintenance Contracts, Computer Maintenance Contracts, Customized Software Development, ERP, Web Design & E-Commerce services.

Aire Solutions Established in 2009 and is 100% nationally owned.

As an Information Technology Company, the company was focused on the delivery of small / medium business services, followed by the launch of providing web hosting services, emails and domain registration.

As the market evolved, Aire Solutions re-positioned its portfolio offerings and re-structured the organization to focus on application solutions. In 2013, it began to offer implementation and consultation services for networking, computer hardware, security cameras, on-line Web services and software development, demonstrating real added value to customers.

With its growing focus on implementing application solutions, Aire Solutions has built a dedicated team of highly skilled professionals and a set of operational competencies that form the underpinnings of its competitive advantage. Today, Aire Solutions is the preferred local systems integrator and application solutions provider for major market sectors such as: Government, Semi Government, Local Government, Non-Governmental Organizations (NGOs), Educational, Commercial, Banking & Real Estate.
